

CHILDREN'S MENTAL HEALTH CENTER

AccessCNY was established to meet the unmet needs of the community and 75 years later the agency is innovating again. Today, the mental health needs of children are at a crisis point and AccessCNY is ready to meet the need.

In 2024 AccessCNY will break ground on a \$5.1 million, eight bedroom Children's Mental Wellness Center. The program will serve kids from 11 to 17 with a mental health diagnosis.

CREATE HOPE & CHANGE TOMORROW

“Support designed specifically for children needing a high level of care is critical for our community. Families with the highest needs are the ones we are failing to support.”
-Bobbi Rogers, NY Families First

CENTER SERVICES AND FEATURES

- Residential Stays at the center will support children in need of immediate mental health support. The home is a transitional location to keep kids in crisis out of the hospital or an emergency room. Kids can stay up to 120 days to work on their mental health with the goal of returning home with their family after their time at the center.
- Intensive Case Management to assess the child and family's needs, to build skills and create connections to ongoing supports and services to ensure long term success.
- Sensory Gym & Garden will serve as places for physical outlets and to help manage those who are struggling with behavior regulation.
- Counseling Spaces for individual and group sessions to facilitate mental wellness, promote self-esteem and increase feeling of security and independence.
